DANIEL ALFONSO SILVA BARRERA

Head of AI & Data Analytics Strategy | Data & AI Product Manager |
Data & Analytics Portfolio Manager | Business to ML/AI Translator

Professional Profile_

Data Analytics and AI leader with a strong technical and academic Background in **Systems Engineering and a Master's degree in Industrial Engineering**, backed by **14+ years of professional experience.** I specialize in strategic consulting, analytics transformation, and the development of **Advanced Analytics, Machine Learning and GenAI** for organizations in the Financial Services, Consumer Goods, Retail, Telecom and Energy sectors at a regional level.

I have experience building **end-to-end Analytics roadmaps**, enabling the adoption of emerging technologies **(GenAI/LLMs)** and institutionalizing **AI/ML governance policies** that ensure ethical and technically sound deployments. I connect the potential of Artificial Intelligence with strategic business value, leading multidisciplinary teams to build products that automate processes, improve decision-making and deliver high operational impact **(including solutions at the scale of 1,000 employees and 100,000+ customers).**

Professional Experience_

Liberty Latin America. Bogotá (CO)

AI Delivery Manager. sep. 2026 – present.

- **Lead AI initiatives as AI Product Manager across multiple markets,** managing the end-to-end lifecycle of **Machine Learning models, GenAI applications, and virtual assistants.**
- **Define the business scope and functional architecture of Analytics solutions**, writing strategic business requirements (BRDs), value capture models, and governance for operational and customer experience (CX) KPIs.
- **Lead executive alignment with regional stakeholders**, syncing leadership teams across operating countries with Engineering squads to improve backlog prioritization and speed up delivery.

Key contributions:

- ✓ **Led the conceptualization, development, and deployment of 3 collections virtual assistants** across 3 markets, **impacting 200K+ customers.**
- ✓ **Led quality assurance and Responsible AI practices for a conversational agent** managing new account installation processes, **reaching 60K+ customers.**

SLALOM. Bogotá (CO)

Consultant, AI & Machine Learning. jan. 2026 – aug. 2026

- **Designed and implemented AI solutions (predictive and GenAI/LLMs)** for Retail and CPG clients, improving operational processes and driving their digital transformation.
- **Managed the full lifecycle of data projects** (from Discovery to deployment), working with multidisciplinary teams to modernize analytics architectures.
- **Facilitated alignment between technical teams and executives**, translating complex Data Science models intro strategic business decisions.

Key projects:

- ***Shentel:*** Designed and implemented predictive models to identify and prevent unnecessary field technician dispatches (Truck Rolls), improving operational ticket management.
- ***Peet's Coffee:*** Architected and implemented a Digital Twin based on prescriptive analytics to optimize coffee blends, reducing procurement costs and shortening the product development cycle.

BANESCO PANAMÁ. Panamá City (PA)

Artificial Intelligence Lead. sep. 2024 – dec. 2025

- **Led the strategy and implementation of AI and Machine Learning solutions** across multiple vice presidencies, improving decision-making, operational processes, and user experience.
- **Managed a multidisciplinary team of 8 specialist** (Data Science, ML, Data Engineering and Architecture), coordinating internal resources, outsourcing, and vendor management as **Product Owner / Product Manager**.
- **Supervised the development of predictive models** focused on market trend forecasting, financial risk management, and customer behavior analysis.
- **Designed and deployed AI and digital transformation products** tailored to customer service areas and business processes, fostering a culture of continuous innovation.
- **Managed strategic alignment with the C-Level**, producing technical proposals and business impact reports for key stakeholders.

Contact_

Bogotá, CO

(+57) 320 2500 530

silvdaniel@gmail.com

Strengths_

- Driving digital transformation projects with direct impact on business processes
- Demonstrated experience in implementing Artificial Intelligence, advanced analytics, and data science projects for end clients
- Designing and optimizing AI and Machine Learning models across various business environments
- Proficient in Data Science for scaling solutions and improving data processing throughput
- Strong communication skills applied in interactions with teams, clients, stakeholders and executive management
- Cross-industry experience: banking, energy, consumer goods, telecom and more
- Directly supporting the management of business strategy projects by offering technical insights in data and data governance
- Technology background characterized by continuous learning of technological and market trends

Key contributions:

- ✓ **Reduced execution time by 90%** in high-risk customer validation, leading as **Product Manager** the technical feasibility, functional definition, and business alignment for the deployment of the **GenAI solution.**
- ✓ **Reduced registration time by 80% and operational error rate by 75%**, leading the definition and deployment of a conversational agent (LLMs) for automated internal request management.
- ✓ **Defined the company-wide AI policy** in coordination with the legal department to establish governance frameworks and vendor standards, driving a **cultural adoption plan for ~1,000 employees.**
- ✓ **Prioritized 25 AI initiatives across 9 vice presidencies** in the cross-functional portfolio, optimizing vendor budget and focusing the business on automation and customer retention.
- ✓ **Built the customer segmentation and value model over 186K accounts**, identifying 9,000 over-served customers and restructuring the commercial strategy to optimize sales team allocation.

ACCENTURE. Bogotá (COL)

Consultor Senior Machine Learning y AI. oct. 2021 - jul. 2024

- **Designed and implemented Machine Learning and AI Solutions** tailored to each client's strategic needs, optimizing and storage architectures.
- **Built marketing-oriented analytics roadmaps,** prioritizing and implementing high-impact projects for companies in the Financial Services, Retail, and CPG sectors.
- **Applied advanced Data Science techniques to generate actionable insights**, coordinating with business teams to align data solutions with corporate goals.
- **Lead internal R&D initiatives** to explore and implement emerging technologies in **Data Science, Machine Learning, and Artificial Intelligence.**

Kay clients: Banco Galicia, Nutresa, Grupo Éxito, Avianca, Caterpillar, Econova (Ecopetrol), Canal Caracol.

Key projects:

- ▸ *Banco Galicia:* Designed and executed the Discovery for the SME Banking analytics roadmap, consolidating a portfolio of **15 priority Machine Learning and AI initiatives.**
- ▸ *Avianca:* Led the Data Science team from a technical and advisory role in the deployment of AI-based recommendation models, increasing **offer personalization within the loyalty and conversion strategy.**
- ▸ *Grupo Nutresa:* Led the design and deployment of ML/AI consumer behavior models for CPG, coordinating multidisciplinary squads to enable **data-driven marketing campaigns with a projected ROI of US $200K.**
- ▸ *Econova (Ecopetrol):* Led the end-to-end development of an NLP ad real-time data visualization solution on Cloud architecture, enabling the **strategic monitoring of 5 innovation centers nationwide.**

UNIVERSIDAD DEL ROSARIO. Bogotá (COL)

Analytics & Machine Learning Lead. jan. 2017 – aug. 2021

- **Designed and implemented the data and Analytics strategy for the Academic Office,** ensuring traceability and governance of 190 academic programs through the architecture of its management platform, from discovery to production.
- **Built a competitive intelligence strategy** based on automated collection of international data, improving decision-making for the creation and modification of 10 academic programs.
- **Led cross-functional initiatives as Product Owner** with institutional development, delivering 10 management Analytics dashboards for operational KPI tracking and faculty talent management.

INFÓRMESE SPSS ANDINO. Bogotá (COL)

IBM SPSS Product Specialist. mar. 2015 - dec. 2016

- **Performed technical requirements gathering, co-design of Analytics solutions,** and proposal presentations for multiple sectors, supporting commercial operations that generated US **$10 million in annual revenue for the company**.
- **Led discovery and validation of Analytics solutions with users** through the creation, development, and delivery of specialized Advanced Analytics workshops and seminars for the corporate market.

EVERIS. Bogotá (COL)

Junior Consultant. may. 2011 – mar. 2013

- Worked with engineering and design teams under agile methodology, ensuring the successful implementation of complex information systems in large-scale organizations.
- Analyzed data using tools such as SQL and Python to process large volumes of information, improve organizational efficiency, and enhance the performance of deployed systems.

Research Assistant Experience_

- **PI2E Project,** Xaverian Pontifical University, Bogotá, apr. 2013 - nov. 2014
- **Vive Digital 2 Project,** Universidad Nacional de Colombia, Bogotá, nov. 2013 - feb. 2014

Education_

Xaverian Pontifical University

MSc in Industrial Engineering. 2012 - 2014

B. Eng. In Systems Engineer. 2005 - 2010

Certifications_

AWS Cloud Practitioner

Professional Development_

- AI Product Management Specialization, Coursera, 2024
- Machine Learning Engineering for Production – MLOps, Coursera, 2022
- Information Visualization, Coursera, 2021

Languages_

Spanish — native

English — B2
Usual working language for projects involving the USA and India

Data Science and cloud computing tools_

applied in led projects

- ▸ Machine Learning, Artificial Intelligence, GenAI
- ▸ Python
- ▸ SQL
- ▸ PySpark
- ▸ Tableau / Power BI
- ▸ Cloud Infrastructure (AWS, GCP, Azure)

Agile Project Management_

CRISP-DM | Scrum | Kanban
